

work/git/mixpp/bdm/estim/ekf_tmpl.h

```
graph BT; A[work/git/mixpp/doprava/k1.cpp] --> B[work/git/mixpp/bdm/estim/ekf_tmpl.h]; C[work/git/mixpp/pmsm/pmsm_mix.cpp] --> B;
```

The diagram illustrates a dependency relationship. Two source files, 'work/git/mixpp/doprava/k1.cpp' and 'work/git/mixpp/pmsm/pmsm_mix.cpp', are shown in white boxes at the bottom. Blue arrows point from each of these boxes to a central gray box at the top containing the header file path 'work/git/mixpp/bdm/estim/ekf_tmpl.h'. This indicates that both source files include or depend on this header file.
